

**Information about the structure of this hybrid-course:**

- **PART A** ON-LINE-session: extensive hours of THEORETICAL LESSONS prepared by Carla and Antonio Stecco - *auch in Deutscher Übersetzung von Christina Halasz*; students can review and listen the lessons as often as they want until three month after the conclusion of part B.
- WEBINAR (optional): one hour on-line live event, organized a couple of weeks before part B, where the teacher answers the doubts or questions related to the online lessons.
- **PART B** ON SITE-session: it composed mostly by PRACTICAL LESSONS.

After receiving the payment, the students are invited to enrol in the "Stecco Learning Environment" platform selecting the hybrid course chosen and get access to the online lessons (A) for about a month before part B.

The lessons will be visible to the students until three months from the conclusion of module B on site. The students can open the platform in order to study the material of A how many times they want.

In order to take part on part B, students must pass **three small tests, consisting of sixty multiple choice questions and "drag and drop"(the correct answers must be at least 80%).**

The training material is given during part B on site.

Two days after the end of part B, the student will be able to download from "Stecco Learning Environment" his/her certificate of participation in the hybrid course, which has a personal identification number.

**The downloading will be possible after the completing of the anonymous survey (FEEDBACK SECTION).**
