Dear Colleague,

we are glad for your interest to participate at the Fascial Manipulation® course.

We would like to invite you to join our platform "Stecco Learning Environment" to allow you to be better prepared at this intense course.

In the platform you will find videos, animations, chapters that will help to prepare yourself for the course and to review the materials at the end. The last day of the course, we will ask you to complete an electronic survey and to download your personal diploma with a personal serial number.

We invite you to click the following link to generate your personal account:

<http://www.fascialmanipulation-stecco.com/login/signup.php?lang=en>

Please follow the attached guideline for proceed for the enrollment of your course.

We looking forward to see you at the course.

With best regards,

Stecco

Hi James Rich,

A new account has been requested at 'Stecco Learning Environment' using your email address.

To confirm your new account, please go to this web address:

<http://www.fascialmanipulation-stecco.com/login/confirm.php?data=CWZiZZVLEL0oDt/myusername> 

In most mail programs, this should appear as a blue link which you can just click on. If that doesn't work, then cut and paste the address into the address line at the top of your web browser window.

If you need help, please contact the site administrator,

[fascialmanipulation-stecco.com](http://fascialmanipulation-stecco.com)

# STEP 5

Confirmation of the registration\ selection of the course

**Dear customer,**

**Thank you for signing up to the Stecco Learning Environment,**

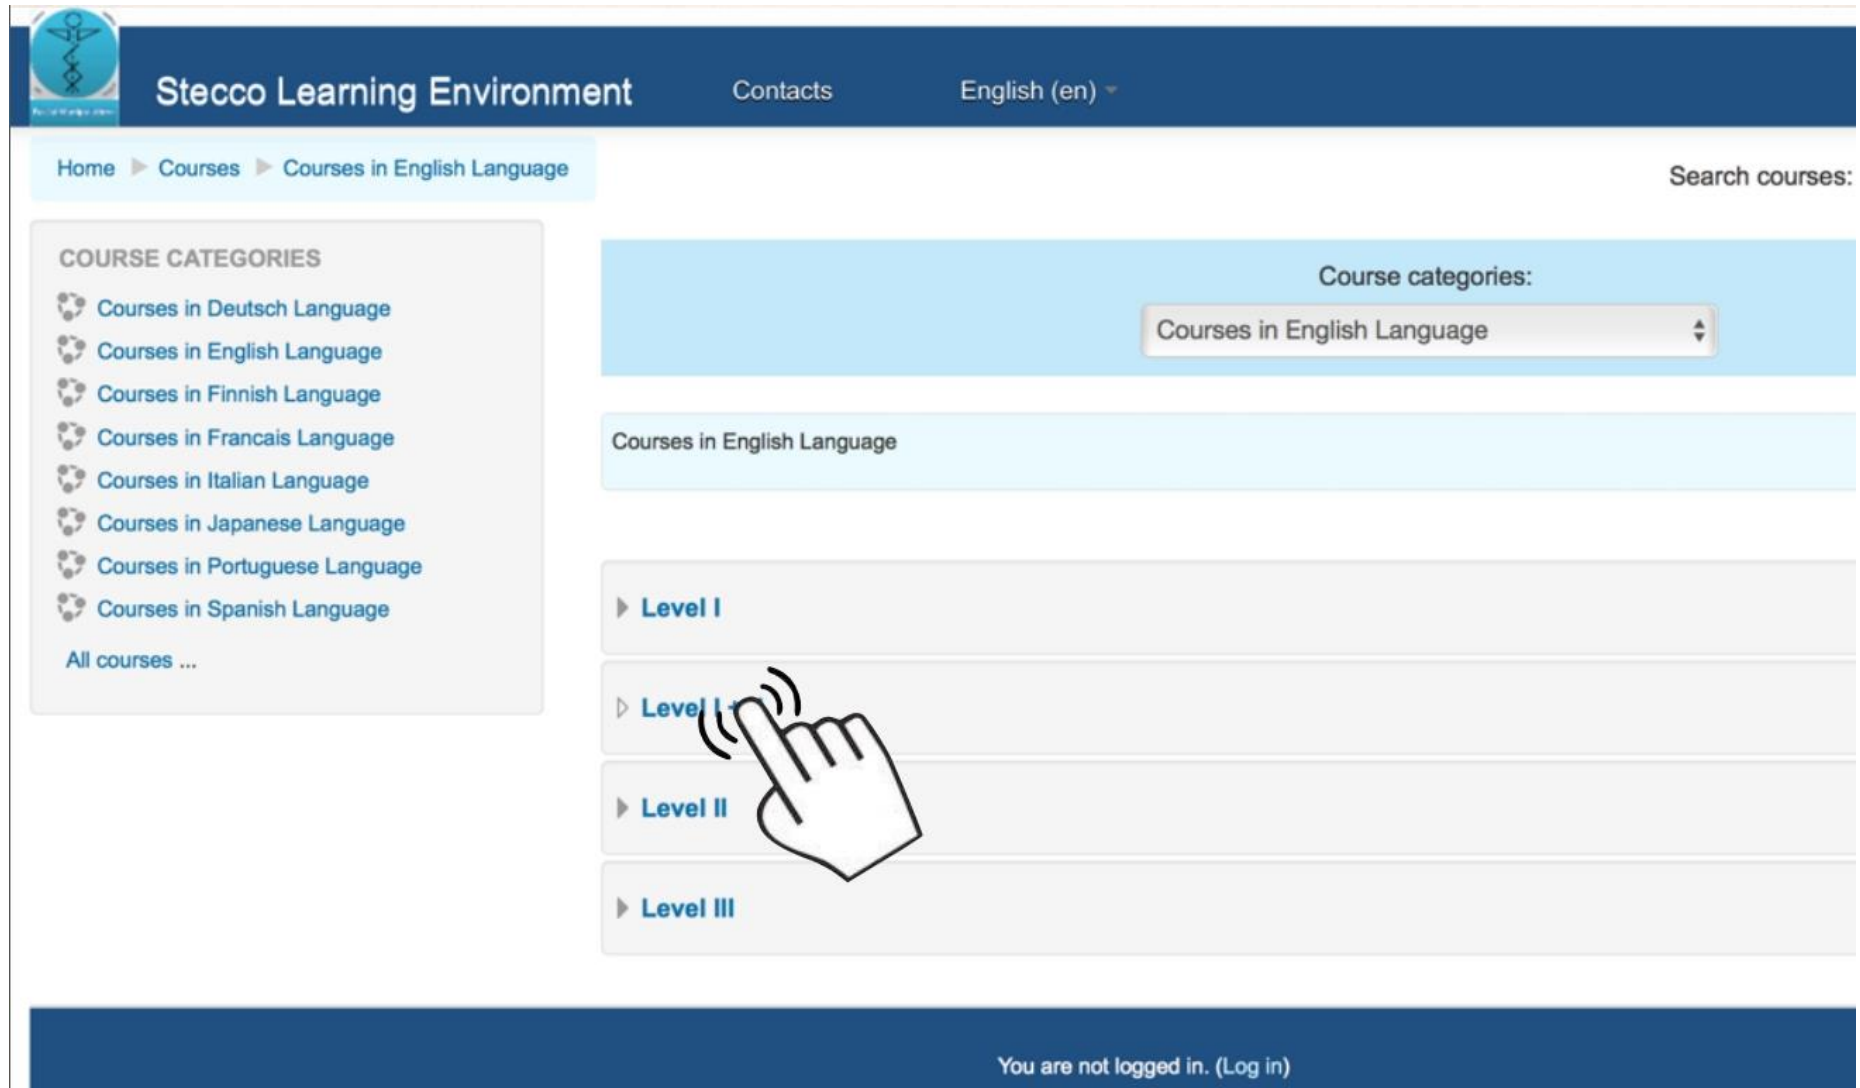

**Now please select your desired course and sign up**

**just by clicking the button [CLICK HERE FOR REGISTRATION].**

# STEP 6

Select the name of the course and the language

The screenshot displays the Stecco Learning Environment interface. At the top, a dark blue header contains the Stecco logo, the text "Stecco Learning Environment", and links for "Contacts" and "English (en)". Below the header, a light blue breadcrumb trail shows "Home > Courses > Courses in English Language". To the right of the breadcrumb is a "Search courses:" label. On the left side, a "COURSE CATEGORIES" sidebar lists various language courses with a small icon next to each: "Courses in Deutsch Language", "Courses in English Language", "Courses in Finnish Language", "Courses in Francais Language", "Courses in Italian Language", "Courses in Japanese Language", "Courses in Portuguese Language", and "Courses in Spanish Language". Below this list is a link for "All courses ...". On the right side, a light blue box contains a "Course categories:" label and a dropdown menu currently showing "Courses in English Language". Below this, a light blue box displays "Courses in English Language". Underneath, a list of course levels is shown: "Level I", "Level I", "Level II", and "Level III". A hand cursor icon is pointing at the second "Level I" entry. At the bottom of the page, a dark blue footer contains the text "You are not logged in. (Log in)".

**Introduction to Fascial Manipulation (R)**  
**1 Introduction**  
Fascial Manipulation(r) is a manual therapy which aim to interpret the passage of the evolution from an initial segmental disturbance to a more generalized dysfunctions. The approach has always been simplification. That is the only way to well understand and approach it. The outcome of this 35 years research and study process is the elaboration of a system that correlates dysfunctional movement and pain giving special regards to the fascial system.

**2 Deep Fascia**  
**2.2 Anatomy of The Trunk**  
The epimysial fascia consists of a thin collagenous layer with a mean thickness of 150-200 µm, tightly connected to underlying muscles. Because of such features, the epimysial fascia is used for flaps only in association with its attachment to underlying muscles.

**3 deep fascia of the trunk**  
from Antonio Stecco  
**FASCIAL MANIPULATION - FIRST LEVEL**  
**ISPRM**  
**SUPERFICIAL LAYER OF DEEP FASCIA OF THE TRUNK**  
The pectoralis major, latissimus dorsi, trapezius, deltoid and gluteus maximus muscles are comprised within the superficial lamina of the deep fascia, and are not separable from the same. The continuity given by this fascia permits the connection among these muscles and the muscles of limbs.
